Your GAP coverage should pay off the loan balance as of the date of your accident or theft in accordance with the maximum benefit and coverage guidelines contained in the contract. (Refer to your copy of the contract.) This amount would also be less your auto insurance settlement and any refunds due on credit insurance, service contracts, etc., included in your original finance agreement.

Make sure the address where the finance company wants the GAP payment mailed is included. It will take the administrator up to 30 days to process your claim. Most finance companies require that you continue to make your monthly payment until the loan is paid in full.

Missing information on the claim will cause a delay in processing. It is a good idea to keep copies of the claim documents for your records and follow up with us after you submit the claim. Please do not send us your social security number, driver’s license number, copies of those documents or other personal information.
